BALLENGER IRRIGATION
Make Every Drop Count

DATE: May 25, 2023 **PROJECT**: Waterset North

RE: Responses to April 28, 2023, Field Inspection Report

2. The irrigation mainline leak has been repaired in the center island just south of Apollo Beach Blvd.

7. The irrigation for the Mammy Crotons outside the Landing will be adjusted as necessary and monitored after rainfall.

10. The drip irrigation on both sides of the sidewalk was re-inspected and there are no signs of an irrigation leak. We believe the buildup of sedimentation is the result of drainage issues in the area.

21. Ballenger Irrigation is not responsible for damage to the turf or landscape during an irrigation repair. However, we will work with Sunrise to see if they can add some extra sod to this area.

26. This is an active zone and the broken drip line has been repaired.

28. Irrigation was inspected earlier this month and no issues were found. Both areas are programmed to operate 20 minutes 4 days a week.

43. The irrigation is working as expected. If bed size remains the same, irrigation should be more than adequate for new plant material.

46. There was an issue with the valve, and it wasn't operating properly. It has since been replaced and the irrigation is working as expected. The turf just needs a little time to recover.

66. Exposed drip tube will be staked down as it is discovered and covered with mulch.

82. The issue in Hourglass Park is with the filtration system at the point of connection. There is an automatic flushing filter with no power, so it must be flushed manually every week. Sometimes more depending on the condition of the reclaimed water.

In addition to the issues mentioned in the April 28, 2023, Field Inspection Report, Ballenger Irrigation also addressed the following:

- Replaced non-warranty decoder and solenoid for zone 3A-52.
- Replaced failed valve in southern cul-d-sac on Current Drive.
- Replace non-warranty decoder and solenoid for zone 3A-37.
- Repaired mainline leak on C-controller.
- Capped all broken bubblers below removed trees on Waterset Blvd in anticipation of new sod.
- Programmed all necessary zones for new turf installed over abandoned tree rings.
- Replaced non-warranty decoder and solenoid for zone 3C2-35.

- Replaced non-warranty decoder and solenoid for zone B1-41.
- Replaced non-warranty decoder and solenoid for zone A44.
- We are continuing to see signs of low pressure throughout the property. This is particularly noticeable in some of the larger turf areas that are utilizing rotors. Where possible, controllers are programmed to come on in the early evening, when there is greater availability of reclaimed water. Filters are also being cleaned more frequently.
- The automatic filters at the B1, B2 and Hourglass Park need to be replaced. A proposal to replace them with filters that can be manually flushed will be presented within the next month.

The ET sensor located on the Hunter ACC controller in the northwest corner of the round-about at PAM and Covington recorded 2.46" of ET and 1.12" of rain between April 25th and May 24th. The Tampa Bay area is currently experiencing an extreme drought, but there are signs that the summer rainy season is about to begin. According to the most recent NOAA data, the current drought could continue through the end of August, but obviously the formation of tropical systems on either coast could have a major impact on how long this extreme drought lasts. Until the rainy season starts, plants and turf could show signs of stress between irrigation cycles. Ballenger Irrigation will monitor areas while conducting routine maintenance and apply additional water if necessary.

If you have any questions or concerns, please feel free to contact us at your earliest convenience.

Sincerely,

Gail Huff

All ponds were treated this month. We still need more rain but at least we are starting to get some. Water levels are still extremely low and we are continuing to aggressively do preventative applications. Devon took pictures of all the ponds we discussed in the last board meeting. We can discuss in detail at the next meeting the plant material around these ponds.

- Removal of Existing Equipment.
- Site Preparation, Grading, Drainage Systems, etc.
- Private Utility Locates
- Engineered Drawings for Purchased Equipment.
- Other Permits or Engineered Drawings (i.e. zoning permits, environmental permits, site surveys, etc.)

***Any other responsibilities must be clearly outlined in the applicable quotation/contract.**

General Notes (All apply unless changes noted in quotation, purchase order, or contract)

Warranties. All equipment, surfacing, and installation is warrantied by Playmore for a period of one year from substantial completion date. After one year, any additional manufacturer's warranties will remain in effect. Manufacturer's warranty claims to be processed by manufacturer. Playmore assumes no responsibility for these additional warranties.

Access/Utilities. Access must be provided to the installation area for heavy trucks and equipment. Access of equipment and personnel is the obligation of the customer to provide until the project is fully completed. We will take every precaution to avoid damage, however any damage caused by the normal installation of our product, such as to sod, concrete sidewalks, private underground utilities, etc., will be the responsibility of the customer, as will any additional costs associated with limiting damage, such as providing plywood over sod for access. If access is not reasonably close to the jobsite, any additional costs incurred due to having to transport materials and/or supplies will be the responsibility of the customer.

Rock/Foreign Object Clause. Most installations require digging of holes and footing equipment in concrete below finished grade. Removal of existing ground covers such as asphalt, concrete, tan bark, sand, pea gravel, wood fiber, rubber matting, poured-in-place rubber surfacing, or any other material that interferes or delays the digging of holes, is the responsibility of others, unless otherwise noted. If excessive underground obstructions such as rocks, coral, asphalt, concrete, pipes, drainage systems, root systems, water, or any other unknown obstructions are discovered, charges will be added to the original proposal.

Playground Surfacing. All playground equipment is to be installed over safety surfacing per CPSC guidelines and ASTM standards. If the customer contracts for something contrary to the guidelines, they are accepting all responsibility for any liability and future litigation that may arise.

Subject: [EXTERNAL]Brookfield future events

Hi everyone,

I was wondering if you could ask the CDD North board for approval for our signature events again this year? Dates aren't confirmed yet but I wanted to make sure we have approval before planning anything 😊.

Also with the Lakeside dock construction, do you think it will be complete before the fall? I'm thinking worst case scenario I could bring in a stage and we could set it up in the grass in front of the dock area. Let me know if they would be ok with that. (hoping it's all fixed and back together by then but just in case 😊).

Fall Concerts for a Cause – we would like to do 4 or 5 concerts sometime between the end of Sept to October (possible early November depending on the date of the first concert). Saturday nights 6pm – 9pm. (this would be the same type of concert / event we've been doing for the past few years there in the Fall) – all the donations go to the food pantry.

Pumpkins for a Cause – at The Landing – possibly mid Oct, (same set up / plan as we've done the past few years) all donations go to the food pantry.

Turkey Trot – Thanksgiving week – use The Landing for packet pick up Wednesday, Race Thursday at The Lakeside – same race route & same set up / plan as the past few years.

Let me know if anyone has any questions or concerns and I'm happy to get with them.

Thanks so much,

Lynda

DESCRIPTION OF WORK

03/20/2023 - APAC arrived to the pool side shower and found the shower head and 1/2 inch CPVC mip snapped off inside the shower pole. The pole may possibly need to be dug up and removed to repair the pipe and reattach the shower head. Requesting a second appointment to make the repair.

03/21/2032 - APAC returned to perform repair. Upon arrival, inspected broken poolside shower. We removed the top cap of shower pole and it gave us enough access to install new nipple to rethread shower. Maintenance restored water and we tested fixture and verified that there no leaks. Job complete.

PAYING YOUR BILL, LATE PAYMENTS, RETURNED CHECK FEES and PAST DUE BALANCES
You are responsible for all legitimate, undisputed charges on your bill. Paying by check authorizes Frontier to make a one-time electronic funds transfer from your account, as early as the day your check is received. When making an online payment, please allow time for the transfer of funds. If funds are received after the due date, you may be charged a fee, your service may be interrupted, and you may incur a reconnection charge to restore service. A fee may be charged for a bank returned check. Continued nonpayment of undisputed charges (incl. 900 and long distance charges) may result in collection action and a referral to credit reporting agencies, which may affect your credit rating.

IMPORTANT CONSUMER MESSAGES
You must pay all basic local service charges to avoid basic service disconnection. Failure to pay other charges will not cause disconnection of your basic service but this may cause other services to be terminated. Frontier Bundles may include charges for both basic and other services. Frontier periodically audits its bills to ensure accuracy which may result in a retroactive or future billing adjustment. Internet speed, if noted, is the maximum wired connection speed for selected tier; Wi-Fi speeds may vary; actual and average speed may be slower and depends on multiple factors. Performance details are at frontier.com/internetdisclosures.

Important Messages

We've noticed that you have been paying your bill electronically lately. To help cut down on clutter and waste, we are no longer including a remittance envelope with your bill. Should you want to mail in your payment, you can request a payment envelope by calling 813-223-0800 or simply use a regular envelope and address it to TECO P.O. Box 31318, Tampa, Florida 33631-3318.

Understanding Your Charges

Average kWh per day – The average amount of electricity purchased per day.

Basic Service Charge/Customer Charge – A fixed daily or monthly amount that covers the cost to provide service to your location. These charges are billed monthly regardless of any service used.

Bright Choices℠ – The associated fees and charges for leased outdoor lighting services.

BTU – British thermal unit – a unit of heat measurement.

Budget Billing – Optional plan averages your home's last 12 monthly billing periods so you pay the same amount for your service each month.

Buried Piping Notification – Federal regulations require that Peoples Gas notify our customers who own buried piping of the following: 1) When excavating near buried gas piping, the piping should be located in advance; 2) The gas supplier does not own or maintain the customer's buried piping; 3) Buried piping that is not maintained may be subject to corrosion and/ or leakage. Buried piping should be inspected periodically and any unsafe conditions repaired. Licensed plumbers, heating and air conditioning contractors, or Peoples Gas can conduct inspections.

Clean Energy Transition Mechanism (CETM) – A charge to recover costs associated with electric meter upgrades and the closing of certain coal generating plants to support Tampa Electric's transition to produce clean energy.

Conversion Factor – This factor is used to adjust for variations from standard delivery pressure and standard delivery temperature where applicable.

Distribution Charge – Covers the costs of moving gas from its source to your premise, other than the cost of gas itself.

Energy Charge – For residential, small commercial and lighting customers, includes the cost (except fuel) of producing and delivering the electricity you purchased, including conservation, environmental and capacity cost recovery charges. For other customers, the three cost recovery charges appear as separate line items.

Estimated – If Tampa Electric was unable to read your meter, "ESTIMATED" will appear. Your meter will be read next month, and any difference will be adjusted accordingly.

Florida Gross Receipts Tax – A tax is imposed on gross receipts from utility services that are delivered to retail customers in Florida, in accordance with Chapter 203 of the Florida Statutes. Utility companies collect the tax from all customers, unless exempt, and remit to the state.

Florida State Tax – A tax imposed on every person who engages in the business of selling or renting tangible personal property at retail in the state, in accordance with Chapter 212 of the Florida Statutes.

Franchise Fee – A fee levied by a municipality for the right to utilize public property for the purpose of providing natural gas and electric service. The fee is collected by Peoples Gas and Tampa Electric and paid to the municipality.

Fuel Charge – Cost of fuel used to produce electricity you purchased. Fuel costs are passed through from fuel suppliers to our customers with no markup or profit to Tampa Electric.

Kilowatt-Hours (kWh) – The basic measurement of electric energy use.

Late Payment Charge – For past due amounts more than $10, the late payment charge is the greater of $5 or 1.5% of the past due amount. For past due amounts of $10 or less, the late payment charge is 1.5% of the past due amount.

Main Extension Charge – A flat monthly fee to recover the cost of extending mains to a particular area when the cost exceeds the maximum allowable construction cost.

Measured Volume – Your natural gas usage in CCF (one hundred cubic feet) or MCF (one thousand cubic feet). These are the standard units of gas measurement.

Municipal Public Service Tax – Many municipalities levy a tax on the natural gas and electricity you use. It is collected by Peoples Gas and Tampa Electric and paid to the municipality.

PGA Charge – Purchased Gas Adjustment – the cost of gas purchased for you by Peoples Gas and delivered to your premises.

Past Due – Previous charges that are past due are subject to a late payment charge fee and may result in disconnection.

Rate Schedule – The amount (rate) you pay depends on your customer category. The cost of providing service varies with the customer group.

Share – A Tampa Electric and Peoples Gas program administered by the Salvation Army and the Catholic Charities Diocese of St. Petersburg that helps pay energy bills of customers in need. If you choose to contribute, your contribution is tax deductible and is matched by Tampa Electric and Peoples Gas.

Storm Protection Charge – The cost of additional hardening efforts to further protect the power grid from hurricanes or other extreme weather events.

Storm Surcharge – The charge that will recover the cost of storms charged to the storm reserve.

Sun Select℠ – The cost of producing energy you purchased from dedicated solar generation facilities. You pay no fuel charge for the Sun Select portion of your bill.

Sun to Go℠ – The amount of electricity purchased from solar generating sources serving the Sun to Go program, which provides optional renewable energy purchases in 200 kWh blocks.

Swing Charge – Covers the costs that are incurred by Peoples Gas to balance the difference between a customer's actual daily usage and the gas delivered by your gas supplier (pool manager).

Therm – A unit of heat equal to one hundred thousand (100,000) BTUs.

Total Amount Due – This month's charges will be past due after the date shown. THIS DATE DOES NOT EXTEND THE DATE ON ANY PREVIOUS BALANCE. It's important that you pay your bill before this date to avoid interruption of service.

Zap Cap Systems® – Surge protection for your home or business sold separately as a non-energy charge.

DESCRIPTION OF WORK

04/20/2023 - APAC responded to plumbing service request. Dog park drinking station leaking internally on solenoid valves, etc. No name of part numbers found on either one and the other one has a leak that's developed but not as bad as the one called out for. APAC will need to attempt to find repair parts. If parts can not be located, entire unit will have to be replaced. Estimates will be needed for both options. APAC discussed with the manager and they advised they would like an estimate to replace with new ones since these are 10 years+ old. Units are 37-1/4 inches tall and 11 inches wide and are black. Estimate will be sent on separate proposal.

Important Messages

We've noticed that you have been paying your bill electronically lately. To help cut down on clutter and waste, we are no longer including a remittance envelope with your bill. Should you want to mail in your payment, you can request a payment envelope by calling 813-223-0800 or simply use a regular envelope and address it to TECO P.O. Box 31318, Tampa, Florida 33631-3318.

Understanding Your Charges

Average kWh per day – The average amount of electricity purchased per day.

Basic Service Charge/Customer Charge – A fixed daily or monthly amount that covers the cost to provide service to your location. These charges are billed monthly regardless of any service used.

Bright Choices℠ – The associated fees and charges for leased outdoor lighting services.

BTU – British thermal unit – a unit of heat measurement.

Budget Billing – Optional plan averages your home's last 12 monthly billing periods so you pay the same amount for your service each month.

Buried Piping Notification – Federal regulations require that Peoples Gas notify our customers who own buried piping of the following: 1) When excavating near buried gas piping, the piping should be located in advance; 2) The gas supplier does not own or maintain the customer's buried piping; 3) Buried piping that is not maintained may be subject to corrosion and/ or leakage. Buried piping should be inspected periodically and any unsafe conditions repaired. Licensed plumbers, heating and air conditioning contractors, or Peoples Gas can conduct inspections.

Clean Energy Transition Mechanism (CETM) – A charge to recover costs associated with electric meter upgrades and the closing of certain coal generating plants to support Tampa Electric's transition to produce clean energy.

Conversion Factor – This factor is used to adjust for variations from standard delivery pressure and standard delivery temperature where applicable.

Distribution Charge – Covers the costs of moving gas from its source to your premise, other than the cost of gas itself.

Energy Charge – For residential, small commercial and lighting customers, includes the cost (except fuel) of producing and delivering the electricity you purchased, including conservation, environmental and capacity cost recovery charges. For other customers, the three cost recovery charges appear as separate line items.

Estimated – If Tampa Electric was unable to read your meter, "ESTIMATED" will appear. Your meter will be read next month, and any difference will be adjusted accordingly.

Florida Gross Receipts Tax – A tax is imposed on gross receipts from utility services that are delivered to retail customers in Florida, in accordance with Chapter 203 of the Florida Statutes. Utility companies collect the tax from all customers, unless exempt, and remit to the state.

Florida State Tax – A tax imposed on every person who engages in the business of selling or renting tangible personal property at retail in the state, in accordance with Chapter 212 of the Florida Statutes.

Franchise Fee – A fee levied by a municipality for the right to utilize public property for the purpose of providing natural gas and electric service. The fee is collected by Peoples Gas and Tampa Electric and paid to the municipality.

Fuel Charge – Cost of fuel used to produce electricity you purchased. Fuel costs are passed through from fuel suppliers to our customers with no markup or profit to Tampa Electric.

Kilowatt-Hours (kWh) – The basic measurement of electric energy use.

Late Payment Charge – For past due amounts more than $10, the late payment charge is the greater of $5 or 1.5% of the past due amount. For past due amounts of $10 or less, the late payment charge is 1.5% of the past due amount.

Main Extension Charge – A flat monthly fee to recover the cost of extending mains to a particular area when the cost exceeds the maximum allowable construction cost.

Measured Volume – Your natural gas usage in CCF (one hundred cubic feet) or MCF (one thousand cubic feet). These are the standard units of gas measurement.

Municipal Public Service Tax – Many municipalities levy a tax on the natural gas and electricity you use. It is collected by Peoples Gas and Tampa Electric and paid to the municipality.

PGA Charge – Purchased Gas Adjustment – the cost of gas purchased for you by Peoples Gas and delivered to your premises.

Past Due – Previous charges that are past due are subject to a late payment charge fee and may result in disconnection.

Rate Schedule – The amount (rate) you pay depends on your customer category. The cost of providing service varies with the customer group.

Share – A Tampa Electric and Peoples Gas program administered by the Salvation Army and the Catholic Charities Diocese of St. Petersburg that helps pay energy bills of customers in need. If you choose to contribute, your contribution is tax deductible and is matched by Tampa Electric and Peoples Gas.

Storm Protection Charge – The cost of additional hardening efforts to further protect the power grid from hurricanes or other extreme weather events.

Storm Surcharge – The charge that will recover the cost of storms charged to the storm reserve.

Sun Select℠ – The cost of producing energy you purchased from dedicated solar generation facilities. You pay no fuel charge for the Sun Select portion of your bill.

Sun to Go℠ – The amount of electricity purchased from solar generating sources serving the Sun to Go program, which provides optional renewable energy purchases in 200 kWh blocks.

Swing Charge – Covers the costs that are incurred by Peoples Gas to balance the difference between a customer's actual daily usage and the gas delivered by your gas supplier (pool manager).

Therm – A unit of heat equal to one hundred thousand (100,000) BTUs.

Total Amount Due – This month's charges will be past due after the date shown. THIS DATE DOES NOT EXTEND THE DATE ON ANY PREVIOUS BALANCE. It's important that you pay your bill before this date to avoid interruption of service.

Zap Cap Systems® – Surge protection for your home or business sold separately as a non-energy charge.
